TECHNICAL SKILLS

Languages: Python [Advanced], Java [Intermediate], JavaScript [Basic], C++ [Basic].

Frontend: React, Next.js, JavaScript, HTML, Socket.io, Streamlit.

Backend: Node.js, Express.js, RestFul API, JWT Authentication, Socket.io.

Mobile Development: Flutter.

Databases: MySQL, MongoDB, Supabase, Firebase.

Tools & Technologies: Docker, Git, GitHub, Postman, Bruno, Render, Netlify, Bcrypt, Figma, Canva.

PERSONAL STATEMENT

Computer Science student skilled in the MERN stack with backend experience in Node.js and Express.js. Built real-time applications, including a multiplayer Food War game using React and Socket.IO. Seeking an internship to contribute and grow in a professional environment.

PROJECTS

FOOD-WARS | [Github Repo Link](#)

Nov 2025 – Jan 2026

Developed a real-time multiplayer game where players guess dish ingredients within a time limit, handling both frontend and backend functionality.

- **Tech Stack and Frameworks used:** React.js, Node.js, Express.js, MongoDB, Socket.IO.
- **Problem Solved / Use Case:** Provides an engaging multiplayer gaming experience that combines food ingredient knowledge with real-time competition and interaction.
- **Challenges Tackled/Learning Outcome:** Managed real-time socket communication, synchronized game state, and multiplayer UI/UX.

SmartNews | [Github Repo Link](#)

Apr 2026 – In progress

Developing an AI-powered news application that provides real-time, categorized news with AI-based summarization, an in-app SmartBot for query-based interactions, and interactive quizzes for students.

- **Tech Stack and Frameworks used:** Flutter, News API, Firebase, GroqAPI
- **Problem Solved / Use Case:** Simplifies news consumption with quick summaries, SmartBot support, and interactive quizzes.
- **Challenges Tackled/Learning Outcome:** Integrated real-time APIs, AI summarization, quiz generation, and built a SmartBot in Flutter.

EDUCATION ENROLLMENT

Kalvium's UG program in CS (Software Product Engineering)

2024-28

Campus: Chennai | Bachelor's enrollment: B.Tech CSE (WIP), Vels Institute of Science, Technology, and Advanced Studies(VISTAS), Chennai.

ACHIEVEMENTS & EXTRACURRICULARS

- **Hackathons & Competitions:** Developed **Triplan** (React Native) in **24 hours** at SRM's NXTGEN Hackathon. The app features an **AI itinerary engine** and **carbon-footprint calculator**, suggesting eco-friendly, animal-safe travel by flagging high-pollution transport.
- **Campus Engagement / Leadership:** Participated in a debugging event organized by the Coding Club of VISTAS campus, enhancing problem-solving and logical thinking skills.
- **Professional Development:** Free **Full Stack** Development Course Completion [Certificate](#).
